FEBRUARY 2022

VITUAL ESCAPE ROOMS AND MUCH MORE

It all started in 2021 when the consortium behind the project planned the best way for career guidance for migrant youth. In spite of Covid 19, the activities were carried on, even though remotely. On the 9th of February, the partners met online for the 3rd transnational meeting planned in Cyprus.

ESCAPE ROOMS

The aim was to talk about the development of the Escape Rooms. 48 virtual escape rooms were created by the consortium, making available a gamified way for young people to discover their preferred skills while playing. Young people will be challenged in topics such as Critical thinking, organization or cultural awareness.

LEARNING, TEACHING, TRAINING ACTIVITY

Coming up is the LTTA (Learning Teaching Training Activity) Eight youth workers from the partners country will convene in Cyprus to be trained by Cardet on the use of the escape rooms. It is in view of the Innovation labs with young migrants. Innovation labs will take the form of piloting sessions in each partners country, during which young migrants will have a fantastic opportunity to play while learning, receive a career guidance and improve their digital skills.
